Product width codes: 2m -1323 , 3m -1583, 4m -1493

GRIPX surface technology reaches the same slip resistant standards as used by most commercial safety flooring, giving you the added confidence of a surer grip. Reducing the potential for slipping in bathrooms, kitchens, utilities or anywhere where liquid may get spilt. It does not mean you will not fall down but it is less likely.

Easy Cleaning

Cleaning could not be easier, simply sweep daily to remove everyday dirt, or for a more thorough clean add a small amount of detergent based cleaner to warm water and wash the floor following the detergent manufacturer's instructions. After washing simply rinse the floor with clean water - what could be easier!

	Total thickness:	ca. 3.00 mm
	Wear layer:	ca. 0.25 mm
	Surface finish:	GripX
	Backing:	Foam Cushioning
	Width:	2 / 3 / 4 m
