New colours and a 12 year warranty for safety flooring Only from Gerflor!

Gerflor has revealed the new palette of colours for its Tarasafe™ safety flooring range. Available in more than 80 finishes, the ground-breaking vinyl floor-covering uses innovative materials to make it brighter, greener and cleaner than ever before.

Gerflor UK Marketing Manager, Nav Dhillon said: "We've listened to our customers and introduced some warmer and brighter colours. Our products are constantly evolving and we're very pleased with the wide choice available. The Tarasafe™ range is suitable for a wide variety of uses that require the highest levels of slip resistance, hygiene, performance and aesthetics and all the styles come with a 12 year warranty."

Inlaid mineral crystal particles make the vinyl flooring lighter in weight than traditional alternatives containing carborundum and also 100 per cent recyclable. The Tarasafe™ range provides permanent slip resistance, meets HSE guidelines and come with a group T (K5) wear rating, ideal for heavy traffic commercial use.

Providing outstanding durability, colour fastness and anti-slip performance, Tarasafe™ also meets EN 14041. The super flexibility of Tarasafe™ flooring makes it easier to install and cove, while hot welding is simple for a water impervious finish. Sanosol® anti-bacterial and fungicidal treatment is incorporated in all products and some of the range has the added benefit of SparClean® surface treatment for extreme resistance to soiling and staining.

The Tarasafe™ range is a great solution for your refurbishments and new build projects, competitively priced and delivery is available within 48 hours to most parts of the United Kingdom.*

** Delivery times applicable to Tarasafe™ Standard, Style & Ultra ranges.*
