

CLIENT: GUERNSEY GRAMMAR SCHOOL, CHANNEL ISLANDS
SOLUTION: TARAFLEX® EVOLUTION

“After research into multi-use flooring and receiving samples from various companies I ascertained that Gerflor was the most practical for our needs. We were absolutely delighted, as the installation back in 2007 went very smoothly and created a fantastic transformation”

Chris Dyer, Building Maintenance
Manager, Education Services,
States of Guernsey

Ten years doesn't seem that long, but in truth it's a short lifetime for most of us. There's not many products out there that would stand the test of time delivering performance year on year and to the highest standards. Everything from cars through to smart phones all seem to wear out or give up the proverbial ghost at some point. However, when The States of Guernsey in the Channel Islands wanted to source 500m² of sports flooring for The Guernsey Grammar School and Sixth Form Centre that would be future proof, they turned to international flooring specialist Gerflor to provide the solution with their world-class, uber performing Taraflex® Evolution sports flooring for their main sports hall.

“ We were extremely pleased with the result. This project using Gerflors' Taraflex® sports flooring was the first installation of its kind in the Channel Islands. It looked fantastic then and still looks great today ”

Greg Forino, Managing Director, Greg Forino Flooring
