

CLIENT: W2, CARDIFF
SOLUTION: CREATION 55

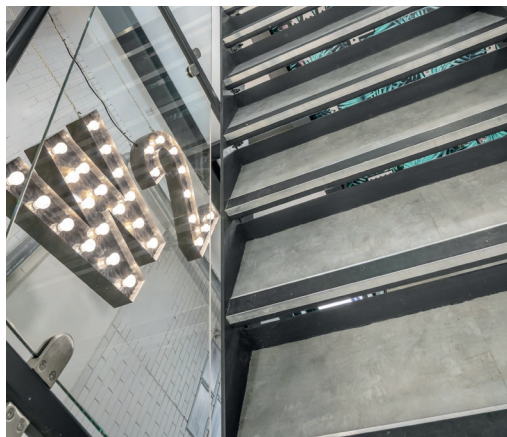

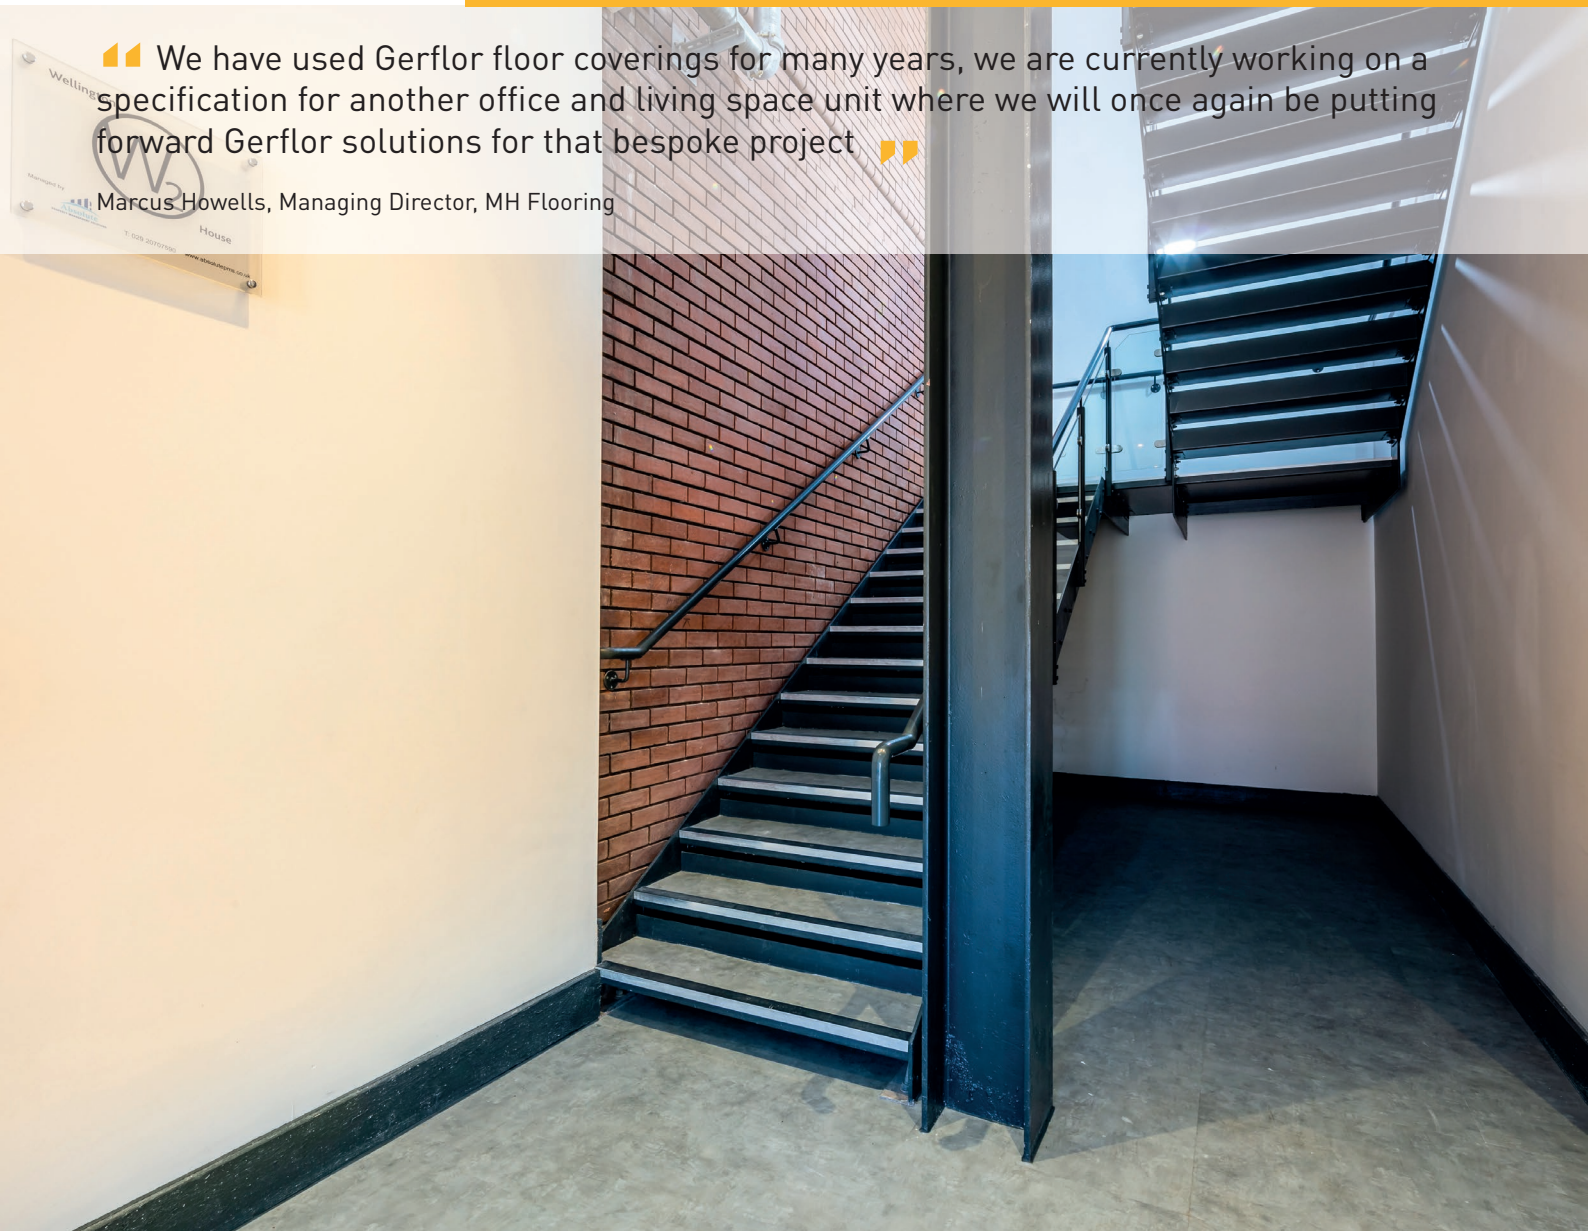

“ We were asked to put forward and suggest floor coverings that would complement this project. We suggested Creation 55 LVT from Gerflor as the product’s design, colour bank and performance would meet every requirement for our client ”

Marcus Howells, Managing Director,
MH Flooring

Situated directly opposite St David’s Hospital in Cardiff, the W2 refurbishment development provides an elegant yet modern suite of residential and office units. The uniquely designed office spaces pay homage to the heritage of the building, which used to be a snooker hall. This exciting project features bespoke detailing including street art and concrete floors to ensure a stylish and versatile way of working in line with the requirements of contemporary 24-7 work spaces. In providing a highly-designed, ultra-modern take on an existing building the re-modelling of the flooring detail would need to be of the highest standards.

“ We have used Gerflor floor coverings for many years, we are currently working on a specification for another office and living space unit where we will once again be putting forward Gerflor solutions for that bespoke project ”

Marcus Howells, Managing Director, MH Flooring
